Christopher Tran

Network Engineer | Enterprise Infrastructure | Fortinet | Hybrid Cloud

career@christran.io | (708) 688-9696 | San Francisco Bay Area | https://christran.io
https://linkedin.com/in/synchris

Summary

Network Engineer with 4+ years of experience managing enterprise infrastructure across 70+ sites and 2 on-premises data centers. Specializes in Fortinet security (FortiGate, FortiManager, FortiAnalyzer), hybrid Active Directory environments, and Microsoft 365. Experienced in full-cycle network deployments, 24/7 on-call operations, and IT service delivery at scale. Holds CompTIA A+, ITIL 4 Foundation, and Google IT Support certifications, with CompTIA Network+ currently in progress. Pursuing an M.S. in Information Technology Management at WGU.

Experience

Auto-Chlor System — Mountain View, CA
Network Engineer — 2025 - Present
Promoted to Network Engineer overseeing enterprise infrastructure across 70+ sites and 2 data centers. Lead Fortinet firewall administration, VPN and cloud networking initiatives, and end-to-end project deployments. Serve as a primary escalation point for complex network issues across the organization.

Junior Network Engineer — 2022 - 2025
Blended network engineering and IT support role responsible for help desk operations, 24/7 on-call support rotation, and end-user troubleshooting across a multi-site environment. Assisted with Fortinet security configurations, network deployments, and connectivity troubleshooting. Managed onboarding and offboarding of IT equipment including phones and tablets using Samsung Knox MDM.

Santa Clara County — San Jose, CA
Associate IT Service Desk Specialist — 2020 - 2022
Provided IT support for the Registrar of Voters, specializing in the configuration and certification of the county's electronic poll book system. Deployed and individually certified 1,200 iPads with election software, voter information files, and paired Bluetooth printers for distribution across 100+ voting centers countywide. Delivered on-site technical support and end-user training at vote centers throughout the county.

Amazon.com — California
3P Problem Solver — 2018 - 2020
Rapidly promoted to a lead role within 2 months of hire, coordinating floor operations and supporting the Area Manager with staffing and daily prioritization. Oversaw time-sensitive order fulfillment in a high-volume warehouse environment, providing guidance and support to coworkers to maintain efficiency and meet productivity targets.

Projects

Home Lab
Repurposed a decommissioned Dell PowerEdge R730 donated by Auto-Chlor System into a personal enterprise-grade lab environment running Proxmox. Use it to simulate network topologies, experiment with virtualized infrastructure, and explore technologies outside of production — bridging hands-on curiosity with real-world engineering practice.

Formula 1 Wiki
Administrator and contributor to the comprehensive Formula 1 wiki on Fandom. Managing content, community guidelines, and technical aspects of one of the largest F1 knowledge bases online. Helping maintain accurate and up-to-date information about Formula 1 racing, teams, drivers, and historical data for fans worldwide.

Education

WGU — Master of Science
IT Management — Expected 2027

UC San Diego — Bachelor of Science
Mathematics-Computer Science — La Jolla, CA • 2018

Foothill College — Associate in Science
Computer Science — Los Altos Hills, CA • 2015

Certifications

Network+ — Expected 2026
CompTIA

A+ — 2025
CompTIA

ITIL 4 Foundation — 2025
PeopleCert

Google IT Support — 2022
Coursera

Skills

Core Competencies
Project Management · Cross-functional Collaboration · IT Service Delivery · Documentation · End-User Training

Infrastructure
On-premises Windows Server, Data Center Management, Hyper-V, Proxmox

Firewalls & Security
Fortinet, FortiManager, FortiAnalyzer, Fortigate

Identity & Directory
Active Directory (Hybrid), Microsoft Entra ID, Cloudflare Zero Trust

Collaboration & Productivity
Microsoft 365, Teams, SharePoint

MDM
Samsung Knox, Jamf, Microsoft Intune
